VALUES

In providing optimum levels of value and service to our clients, and developing long term relationships, every process at Abakhuliswayo is underpinned by our core values:

- **Quality**—This is the corner stone of all work we do. We see our business as a Craft, and is not merely a trade.
- **Teamwork** – We value every member of our organisation and strive for open communication, fairness, equality, and growth. This results in a happier and more productive work environment
- **Integrity** – Our goal is to operate ethically and honourably without reproach in all operations in both the public and private sectors.
- **Performance**—We strive to optimise our performance in all aspects of our business, and operations in adhering to project timelines, thereby increasing client satisfaction and our profitability
- **Harmony** - In all our projects we seek to mitigate potential conflicts and find solutions to the betterment of our clients, the community and the environment

Quality, Teamwork, Integrity, Performance, & Harmony

RESOURCES

Abakhuliswayo has both the human and physical resources to undertake a diverse range of projects without having to outsource either skills or plant. This allows us to operate more efficiently, with rapid mobilisation and faster turnaround times without depending on third-party suppliers and external consultants. In addition to the full range of plant and equipment required for civil, engineering and construction works, Abakhuliswayo has its own surveying, testing and diagnostic equipment allowing us to assist our clients, monitor and improve our own work, and pre-empt delays caused by external parties. Our team include specialists in every aspect of construction, who can assist our clients in finding optimum solutions and aiding with the complexities often encountered in construction projects. They include:

- Procurement specialists
- Product and specification specialists
- Technical specialists
- In-house Engineers and Architects
- Project planners
- Cost estimators
- Plant manager and mechanics
- Human Resource and Community Liaison specialist

Fully resourced to meet any challenge
